- **How to avoid loosing the orders;**
- Sometimes I get complaint from customers that they lost their order in the time of placing the order. The main reason is most of our customers leave the computer idle for a long time when placing the order and session get expired. Our shopping systems is very powerful and we got all the features of a best shipping cart system. ([discuss this issue in our Froum](#))
- **Steps to Avoid Loosing the Orders:-;**
- Go to our shopping cart system.
- Login if already registered or register as a new user before you start to place the orders.
- Add the all the items that you selected and if it is the big order please click view cart after some time and click **Save This Cart**

- Enter a name for the cart so that you can restore it at any time and even you can specify the no of days that your cart need to be stay in our shopping systems. you can save in the same cart at any time .
- Then continue checkout or even if necessary you modify and finally save this cart in the same name or different name and click checkout and proceed the following steps. When you give an idle time in the time of placing the orders it may cause the session to get expire. So please save the cart and continue the checkout and this saved cart you can use it any time under **Cart Administration** menu once you logged in.
- Please visit our forum to post your message ([forum](#)) if you still have any problem in placing the orders.
we will respond with a solution in 12hr.
 - Enjoy the shopping with Eurostarjewelry.com and send me your suggestions if anything can improve to serve you better.
